

Company Overview:

The Collins Electric Co., Inc. is a design and contracting firm established in 1906, and in its fourth generation of daily hands on management by members of the Collins family. **For 110 years**, Collins has been proud to offer quality services to the communities of Western Massachusetts.

The fourth generation of the Collins' family is represented by Joseph Collins and Lawrence Eagan who, as Co-Presidents of the company, are responsible for the coordination of project managers, customer service, purchasing, and field manpower.

In commercial, industrial, and institutional settings, Collins Electric has been a leader in designing and wiring office buildings, hotels, manufacturing facilities, warehouses, shopping centers, parking garages, hospitals and educational facilities of every size and dimension.

Our regular activities include providing services for industrial plant moves, maintenance programs, energy management, on-call services, power distribution analysis, service upgrades, and providing and installing emergency, stand-by generator systems, and uninterrupted power supply systems for computer and data systems.

Additionally, Collins Electric offers project design and analysis, value engineering, accurate budget analysis, and imaginative design and build services. We employ experienced estimators and project managers, skilled foreman with highly qualified electricians/technicians, and office support personnel.

We have the unique position in Western Massachusetts as being the only electrical contractor with a registered electrical engineer on staff which allows for great flexibility on design/build projects and direct hands-on involvement with customers.

We are the oldest and largest engineering and electrical contracting firm in Western Massachusetts.

We believe that the Collins Electric team can ensure quality design services and installations that will be delivered **on time and within budget**. Collins Electric brings a wealth of industry experience with difficult projects that had to be completed under compressed time frames, a broad understanding of the construction market, and highly skilled people in all positions.

Our commitment to quality work and service at every level and at every project size has built a reputation for reliability and superior performance and value with a strong client base.
